Jumbo Sponge

Variant code: 12-014

Jumbo Sponge is a high-performance **heavy duty cleaning sponge** designed for demanding commercial, industrial and professional cleaning applications. Manufactured from durable high-density foam, this jumbo-sized sponge delivers exceptional absorbency, durability and cleaning power, making it ideal for contract cleaners, janitorial teams and facilities maintenance environments.

Featuring a large-format design for maximum surface coverage, the Jumbo Sponge helps reduce cleaning time while improving efficiency across a wide range of tasks. The highly absorbent open-cell structure retains large volumes of water and cleaning solution for consistent application, while the durable textured surface effectively removes grease, dirt, grime and marks from multiple surfaces without easily tearing or breaking down during repeated use.

Its ergonomic size and comfortable grip help minimise hand fatigue during prolonged cleaning sessions, making it a practical and reliable solution for busy commercial cleaning operations. Suitable for kitchens, bathrooms, flooring, industrial equipment, automotive cleaning and general janitorial applications.

Product Features

- **Jumbo heavy duty cleaning sponge**
- Large format design for maximum cleaning coverage
- High-density durable foam construction
- Excellent absorbency and liquid retention
- Textured surface for effective dirt removal
- Comfortable ergonomic handling
- Suitable for commercial and industrial cleaning
- Reusable and long-lasting performance

Product Benefits

- Helps reduce cleaning time with larger surface coverage
- Provides excellent durability for repeated heavy-duty use
- Effectively removes grease, grime and
