Karcher 2.5m Suction Hose 35mm - New Style - For T 10/1 & T Series Vacuum Cleaners

Variant code: 16-28891330

Kärcher 2.5m Suction Hose is a **high-quality replacement vacuum hose** designed for compatible **Kärcher T Series dry vacuum cleaners**. Available in **32mm Old Style** and **35mm New Style** configurations, this replacement hose provides excellent flexibility, reliable airflow and consistent suction performance for professional cleaning applications.

Manufactured from durable, flexible materials, the hose is engineered to withstand the demands of daily commercial use while resisting kinking, twisting and wear. Complete with an ergonomic hose bend, it offers improved handling and manoeuvrability, making it easier to clean around furniture, fixtures and confined spaces while maintaining optimum suction.

The **32mm Old Style** version is designed for earlier Kärcher T Series vacuum cleaners using the traditional hose connection, while the **35mm New Style** version features the updated clip connection for compatible newer models. Both versions are direct replacement components that install quickly and securely, restoring your vacuum cleaner's performance with minimal downtime.

With a **2.5-metre working length**, the hose provides excellent reach while maintaining operator comfort, making it ideal for demanding commercial cleaning environments.
