Karcher FR 30 Surface Cleaner - Rotary Hard Surface Cleaning Attachment

Variant code: 16-21110110

Kärcher FR 30 is a **professional rotary surface cleaner** designed to transform compatible industrial pressure washers into highly efficient hard floor cleaning systems. Engineered for fast, splash-free cleaning, the FR 30 uses the power of high-pressure water to rotate an internal set of cleaning arms, delivering outstanding cleaning performance across a wide range of hard surfaces.

As water passes through the unit, the internal rotor spins at high speed, creating a floating effect that allows the cleaner to glide smoothly over the surface. The powerful rotating jets provide consistent cleaning coverage while preventing the overspray and splash-back commonly associated with open lance cleaning.

Once the cleaning process is complete, the FR 30 can be connected to a compatible Kärcher wet and dry vacuum system to recover dirty water from the surface, helping leave floors cleaner, drier and ready for use more quickly.

Product Features

- **Professional rotary surface cleaner**
- Compatible with industrial pressure washers
- High-speed rotating internal cleaning arms
- Splash-free hard surface cleaning
- Floating action for smooth operation
- Uniform cleaning coverage
- Reduces overspray and splash-back
- Can be connected to Kärcher wet and dry vacuums

Product Benefits

- **Provides fast and efficient hard surface cleaning**
- **Eliminates splash-back associated with pressure washing lances**
- **Delivers consistent cleaning results across large areas**
- Improves operator comfort and productivity

- Smooth floating action reduces user effort
- Supports wastewater recovery when used with a wet and dry vacuum

Technical Characteristics

- Model: **Kärcher FR 30**
- Product Type: **Rotary Surface Cleaner**
- Cleaning Method: High-pressure rotary jet system
- Operation: Water-powered internal rotor
- Surface Coverage: Uniform circular cleaning pattern
- Wastewater Recovery: Compatible with Kärcher wet and dry vacuums
- Application: Hard surface cleaning
- Compatibility: Suitable for compatible industrial Kärcher pressure washers

Applications

Kärcher FR 30 is ideal for **facilities management companies, industrial cleaning contractors, local authorities, warehouses, distribution centres, car parks, forecourts, workshops and commercial premises**. Suitable for cleaning **concrete, paving, stone, industrial flooring, walkways, patios and other hard surfaces**, it delivers efficient, splash-free pressure washing performance while helping maintain a clean and professional environment.

Property	Value
Weight (kg)	2.7
Material	Plastic
Area of Use	Concrete Floors, Patios, Hard Surfaces, Commercial Premises, Workshops, Garages, Outdoor Cleaning Areas.
How to Use	Connect to a compatible Kärcher pressure washer, install the correct nozzle kit, and guide the FR 30 across the surface for fast, even cleaning of large hard floor areas.
Working Width (mm)	300
Maximum Pressure	180 bar
Product Type	Surface Cleaner
Connection Type	EASY!Lock
