Karcher KM70/20C 2SB Manual Push Sweeper inc 2 Side Brushes

Variant code: 16-15171070

Karcher KM 70/20 C 2SB is a high-performance **manual push sweeper** designed for fast, efficient and dust-controlled cleaning of indoor and outdoor hard surfaces. Featuring two side brushes and a powerful sweeping system, this compact machine offers significantly greater productivity than conventional hand sweeping methods while requiring no power source, batteries or fuel.

Engineered for professional use, the KM 70/20 C 2SB uses a dual side brush configuration to maximise sweeping width and improve edge cleaning performance. The manually operated sweeping mechanism efficiently collects dust, dirt, leaves and general debris into a large waste container, helping maintain clean and safe environments with minimal effort. Its compact design and excellent manoeuvrability make it easy to navigate around obstacles, while the ergonomic push handle ensures comfortable operation during extended cleaning sessions.

Built with Kärcher's renowned durability and reliability, the KM 70/20 C 2SB offers a practical and economical solution for routine maintenance cleaning. The machine's simple design minimises maintenance requirements while delivering professional sweeping results across a wide range of commercial, industrial and public environments.

Product Features

- **Manual push sweeper** requiring no power source
- Supplied with **2 side brushes** for increased sweeping width
- Efficient collection of dust, dirt, leaves and debris
- Large waste container for extended cleaning periods
- Compact and highly manoeuvrable design
- Ergonomic push handle for operator comfort
- Suitable for indoor and outdoor hard surface cleaning

Product Benefits

- Provides faster cleaning than traditional hand sweeping methods
- Reduces cleaning time and labour costs
- Requires no electricity, batteries or fuel
- Improves cleaning performance along edges and corners
- Easy to operate with minimal training required
- Low maintenance and economical to run
- Helps maintain cleaner and safer environments

Technical Characteristics

- Professional **manual walk-behind sweeper**
- Dual side brush sweeping system
- Suitable for indoor and outdoor applications
- Large-capacity debris collection hopper
- Compact and lightweight construction
- Robust commercial-grade design
- Easy-empty waste container system

Applications

Karcher KM 70/20 C 2SB is ideal for warehouses, workshops, schools, retail premises, loading bays, car parks, pathways, courtyards and public buildings where quick and efficient sweeping is required. Its dual side brush design and manual operation make it particularly suitable for facilities seeking a cost-effective, environmentally friendly solution for maintaining clean and professional indoor and outdoor spaces.
