Karcher KM75/40W BP Battery Powered Vacuum Sweeper

Variant code: 16-10492070

Karcher KM 75/40 W Bp is a professional **battery powered vacuum sweeper** designed for efficient cleaning of large indoor and outdoor areas. Combining powerful sweeping performance with cordless operation, this robust machine offers excellent manoeuvrability, low operating noise and highly effective dust control, making it ideal for commercial, industrial and public environments.

Built for productivity, the KM 75/40 W Bp features a large sweeping capacity and an easy-to-operate design that allows operators to quickly clean expansive areas with minimal effort. The adjustable main roller brush can be modified during operation to suit different floor surfaces, ensuring optimum cleaning performance across a variety of environments. Capable of collecting bulky debris up to **50mm in diameter**, the machine effectively handles dust, dirt, leaves, litter and other waste materials commonly found in busy facilities.

To maximise dust control, the machine incorporates a large filter area combined with a manual filter shaker system, helping maintain consistent suction performance and reducing airborne dust during operation. Easy maintenance access and durable construction ensure long-term reliability, making the KM 75/40 W Bp a dependable solution for routine sweeping and facility maintenance programmes.

Product Features

- **Battery powered vacuum sweeper** for cordless operation
- Designed for efficient cleaning of large areas
- Adjustable main roller brush for different floor surfaces
- Capable of collecting debris up to **50mm in diameter**
- Large filter area for superior dust control
- Manual filter shaker system for easy maintenance
- Robust and user-friendly design

Product Benefits

- Provides efficient sweeping of large indoor and outdoor spaces
- Reduces cleaning time and labour requirements
- Improves dust control and air quality during operation
- Handles both fine dust and bulky debris with ease
- Offers quiet, emission-free battery-powered performance
- Simple controls minimise operator training requirements
- Built for reliable daily commercial and industrial use

Technical Characteristics

- Professional **walk-behind battery powered vacuum sweeper**
- Suitable for indoor and outdoor sweeping applications
- Adjustable main brush system
- Large-capacity debris collection hopper
- Large filter area with manual filter shaker
- Capable of collecting waste up to 50mm diameter
- Designed for large area cleaning and maintenance

Applications

Karcher KM 75/40 W Bp is ideal for warehouses, manufacturing facilities, retail parks, car parks, schools, hospitals, distribution centres and public buildings where efficient sweeping and dust control are essential. Its battery-powered operation, large debris capacity and adjustable sweeping system make it particularly suitable for maintaining clean, safe and professional environments across a wide range of commercial and industrial settings.

Property	Value
Length (mm)	1430
Weight (kg)	125
Width (mm)	750
Height (mm)	1190
Voltage	24
