Karcher KM 75/40 W G - Petrol Powered Vacuum Sweeper with Traction Drive

Variant code: 16-10492050

Karcher KM 75/40 W G is a professional-grade **petrol powered vacuum sweeper** engineered for efficient outdoor sweeping and dust control across commercial, municipal and industrial environments. Designed to deliver high productivity with minimal operator effort, this walk-behind sweeper combines powerful sweeping performance with a traction drive system, making it ideal for maintaining large external areas quickly and effectively.

Powered by a reliable petrol engine, the KM 75/40 W G offers complete independence from mains electricity and battery charging requirements, allowing unrestricted operation across car parks, warehouses, loading bays and public spaces. Its traction drive system assists forward movement, reducing operator fatigue and improving productivity during long cleaning shifts. The machine's sweeping system effectively collects dust, dirt, leaves and debris while minimising airborne particles, helping maintain cleaner and safer outdoor environments.

Built with Kärcher's renowned durability and ease of maintenance, the KM 75/40 W G is designed for everyday professional use. The large waste container capacity reduces emptying frequency, while the compact walk-behind design allows easy manoeuvrability around obstacles and confined outdoor areas. Combining robust construction with practical operation, it provides a dependable solution for routine grounds and facility maintenance.

Product Features

- **Petrol powered vacuum sweeper** for outdoor cleaning applications
- Integrated **traction drive system** for reduced operator effort
- Efficient sweeping and vacuum collection performance
- Large debris hopper for extended cleaning periods
- Designed to minimise airborne dust during operation

- Compact walk-behind design for excellent manoeuvrability
- Heavy-duty construction for professional use

Product Benefits

- Provides fast and efficient sweeping of large outdoor areas
- Reduces manual sweeping labour and operating costs
- Improves operator comfort through traction-assisted movement
- Maintains cleaner, safer and more professional-looking environments
- Operates independently without cables or charging downtime
- Reduces dust and debris build-up in high-traffic areas
- Delivers reliable performance in demanding commercial applications

Technical Characteristics

- Professional **walk-behind petrol vacuum sweeper**
- Self-propelled traction drive system
- Suitable for sweeping dust, leaves, litter and general debris
- Large-capacity waste collection hopper
- Designed for external hard surface maintenance
- Robust commercial-grade construction
- Engineered for regular professional cleaning operations

Applications

Karcher KM 75/40 W G is ideal for warehouses, logistics centres, manufacturing facilities, retail parks, educational campuses, transport hubs, municipal environments and public spaces where efficient outdoor sweeping is required. Its petrol-powered operation and traction drive capability make it particularly suitable for large external areas where productivity, mobility and dependable debris collection are essential to maintaining clean and safe surroundings.

Property	Value
Length (mm)	1430
Weight (kg)	84
