Karcher Nozzle Kit 018 - For Surface Cleaners Operating at 450-500 Litres per Hour

Variant code: 16-26404820

Kärcher Nozzle Pack 018 is a **genuine replacement nozzle kit** designed specifically for Kärcher surface cleaners operating within a **450-500 litres per hour flow range**. Engineered to optimise cleaning performance, this precision nozzle set ensures the correct water flow and spray pattern required for efficient hard surface cleaning.

Designed for use with compatible Kärcher FR series surface cleaners, the nozzle kit helps maintain consistent rotor speed, balanced water distribution and maximum cleaning effectiveness. Correctly matched nozzles are essential for achieving optimum cleaning results while protecting both the pressure washer and surface cleaner from unnecessary wear.

Manufactured to Kärcher's exact specifications, the Nozzle Pack 018 provides reliable performance, long service life and straightforward installation.

Product Features

- **Genuine Kärcher nozzle kit**
- Designed for surface cleaners operating at **450-500 L/h**
- Precision-engineered spray nozzles
- Maintains optimum surface cleaner performance
- Supports balanced rotor operation
- Durable and wear-resistant construction
- Easy installation and replacement

Product Benefits

- **Optimises cleaning performance and efficiency**
- **Ensures correct water flow and spray pattern**
- **Maintains consistent rotor speed**
- Helps achieve uniform cleaning results
- Reduces unnecessary wear on equipment
- Quick and simple nozzle replacement

Technical Characteristics

Tel: 01626 355177
Email: info@aukhygiene.com

- Product Type: **Surface Cleaner Nozzle Kit**
- Model: **Nozzle Pack 018**
- Flow Rate Compatibility: **450-500 litres per hour**
- Application: Surface cleaner performance optimisation
- Construction: Precision-machined nozzles
- Installation: Direct replacement
- Compatibility: Selected Kärcher surface cleaners

Applications

Kärcher Nozzle Pack 018 is ideal for **professional pressure washing contractors, facilities management companies, industrial cleaning teams, local authorities and commercial cleaning specialists**. Suitable for maintaining and optimising compatible Kärcher surface cleaners used on **concrete, paving, stone, walkways, forecourts, warehouses and hard floor surfaces**, it ensures reliable and efficient cleaning performance across a wide range of applications.

Property	Value
Weight (kg)	0.1
Connecting Thread	M22 × 1.5
Flow Rate	450 / 500
Product Type	Surface Cleaner Nozzle Kit
