Kleenmist Dispenser AD-100 - Each

Variant code: 06-681

Kleenmist AD-100 Automatic Metered Aerosol Dispenser - White - Each is a **professional battery-operated air freshener dispenser** designed to deliver consistent fragrance and effective odour management in commercial, public and domestic environments. Compatible with **270ml Kleenmist metered aerosol refills**, the dispenser automatically releases measured bursts of fragrance at selected intervals, helping maintain a fresh and welcoming atmosphere. Its **durable white ABS plastic housing** provides a practical and discreet solution for washrooms, offices, reception areas and other shared indoor spaces.

Featuring **six selectable operating combinations**, the dispenser offers adjustable spray intervals of **8, 15 or 25 minutes**, together with selectable operating modes for different usage requirements. These settings allow the fragrance release schedule to be adapted to room occupancy and operating hours, helping manage aerosol consumption. A **red flashing LED indicator** provides a visible indication of operation, while the integrated battery indicators support routine maintenance. When fitted with a compatible 270ml Kleenmist aerosol refill, the system can deliver approximately **3,400 metered sprays**, with fragrance duration depending on the selected settings.

Constructed from **high-impact ABS plastic**, the dispenser features a **lockable cabinet** to help prevent unauthorised access and aerosol removal. It operates using **2 x AA batteries, which are not included**, eliminating the need for a mains electrical connection. Supplied with **wall fixings** for straightforward installation, the compact dispenser measures approximately **9 x 8 x 20cm** and is suitable for wall mounting in convenient locations. Its easy-to-service design makes it ideal for facilities requiring reliable, automatic fragrance dispensing with minimal daily attention.

Product Features

- **Automatic metered aerosol dispenser** for controlled fragrance release
- **Compatible with 270ml Kleenmist aerosol refills**

and Operating Settings
- **Refill Required:** Yes
- **Aerosol Refill Included:** Not Specified; Purchase Separately Unless Confirmed
- **Suitable Environment:** Indoor Washrooms and Communal Areas
- **Suitable Environment:** Offices and Reception Areas
- **Suitable Environment:** Hotels and Leisure Facilities
- **Suitable Environment:** Commercial and Public Premises
- **Pack Quantity:** Each
- **Maintenance:** Periodic Battery and Aerosol Replacement
- **Intended Use:** Automatic Indoor Fragrance Dispensing
- **Safety:** Install and Operate According to Dispenser and Aerosol Instructions

Applications

Ideal for **automatic air freshening, washroom odour management and controlled fragrance dispensing** in offices, hotels, restaurants, schools, universities, leisure centres, gyms, changing rooms, reception areas, corridors, shopping centres and public conveniences. Designed for use with **270ml Kleenmist metered aerosol refills**, the dispenser provides adjustable spray intervals and operating modes to suit different room sizes, occupancy patterns and fragrance requirements. Its **durable lockable housing, battery-powered operation and compact wall-mounted design** make it particularly suitable for busy commercial environments where reliable fragrance dispensing and straightforward maintenance are essential. Supplied individually with wall fixings, it offers a practical solution for establishing or expanding an automatic air freshening system.
