Lucart L-One Toilet Roll Dispenser - Twin Roll Dispenser - Plastic - Black

Variant code: 28-L1DB

Lucart L-One Toilet Roll Dispenser - Twin Roll Dispenser - Plastic is a **twin roll dispensing solution** designed to support continuous and controlled paper delivery in high-traffic commercial washroom environments. Manufactured by Lucart Professional, a brand recognised for sustainable and efficient washroom systems, the L-One range is engineered to optimise paper consumption while maintaining consistent hygiene standards and user experience.

The twin roll configuration allows for extended capacity, reducing the frequency of refilling and helping maintain availability during peak usage. Its **durable plastic construction** is available in **black and white finishes**, enabling integration into a variety of washroom designs from modern to traditional settings. The controlled dispensing mechanism ensures measured paper release, supporting cost control and reducing unnecessary waste.

Designed for practical installation and maintenance, the dispenser features a user-friendly refill system and secure wall-mounted design. As part of the Lucart L-One system, it integrates with compatible paper rolls to deliver a coordinated and efficient washroom solution suited to professional environments.

Product Features

- **Twin roll toilet roll dispenser** for increased capacity
- Part of the Lucart L-One professional washroom system
- **Available in black and white finishes**
- Durable plastic construction for long-term use
- Designed to **reduce paper waste** through controlled dispensing
- Easy refill system for efficient maintenance

Product Benefits

Tel: 01626 355177
Email: info@aukhygiene.com

- Reduces refill frequency in high-traffic environments
- Supports improved hygiene through controlled paper dispensing
- Helps **manage consumption** and operational costs
- Enhances washroom appearance with coordinated design options
- Minimises maintenance time and servicing requirements
- Provides **consistent performance** across facilities

Technical Characteristics

- Designed for use with Lucart L-One compatible paper rolls
- **Wall-mounted installation** for secure positioning
- Durable plastic housing construction
- **Simple refill and roll change** mechanism
- Suitable for high-traffic washroom environments
- Install in accordance with manufacturer guidelines

Applications

Lucart L-One Toilet Roll Dispenser is suitable for commercial washrooms in offices, hospitality venues, healthcare facilities, education settings and public buildings. The twin roll design makes it particularly effective in high-usage environments where maintaining continuous availability is critical. The availability of **black and white finishes** allows it to be specified across a range of interior styles, supporting both functional performance and visual consistency within professional washroom systems.
