

Lainox Solid Cal SCA01 – Pack of 6x850g Tub

Variant code: 04-SCA01

This product is designed specifically to meet the exacting requirements of your Lainox NABOO and SAPIENS combination ovens automatic descaling process.

The Solid CAL bottle is inserted into the auto feed tray ready to descale the oven's steam generator, quickly dissolving any scale build-up. Using Solid CAL as prompted by your oven will maintain steam generator condition and integrity and ensure that the oven always works at optimal efficiency.
