Litter Picker - 85cm

Variant code: 18-446

Litter Picker is a lightweight and durable **85cm waste collection tool** designed for safe and hygienic litter removal in commercial, public and domestic environments. Manufactured from strong aluminium, this practical litter picker provides an efficient solution for collecting waste without direct hand contact or unnecessary bending.

Designed for everyday cleaning and maintenance tasks, this litter picker is ideal for collecting cans, bottles, wastepaper and general litter from indoor and outdoor areas. The lightweight **aluminium construction** offers excellent durability while remaining comfortable to use during prolonged cleaning operations. Its practical 85cm reach helps reduce bending and physical strain, improving user comfort and workplace hygiene.

Suitable for professional cleaning teams, grounds maintenance staff and domestic users, this easy-to-use litter picker supports safer and more efficient waste collection across a wide range of environments.

Product Features

- **85cm litter picker**
- Lightweight aluminium construction
- Designed for hygienic litter collection
- Suitable for cans, bottles, paper and general waste
- Helps reduce bending and stretching
- Easy and comfortable to operate
