Litter Picker Extra Long Reach - 200cm

Variant code: 18-447

Litter Picker Extra Long Reach is a professional-grade **200cm litter collection tool** designed for safely picking up waste and hazardous materials from hard-to-reach areas. Featuring a sturdy aluminium shaft, impact-resistant construction and shaped gripping claws, this high-quality litter picker provides reliable and hygienic waste collection for commercial, municipal and facilities management environments.

Engineered for durability and ease of use, this extra-long litter picker features specially designed **shaped claws** that securely grip difficult or hazardous items including glass, needles and general litter. The extended **200cm reach** makes it ideal for retrieving waste from trees, bushes, waterways and inaccessible areas without bending or stretching. Its lightweight aluminium shaft combined with an impact-resistant head and grip ensures dependable long-term performance in demanding cleaning and maintenance applications.

Designed for convenient **one-handed operation**, this litter picker improves efficiency while helping reduce direct contact with waste materials, supporting safer and more hygienic cleaning procedures in both indoor and outdoor environments.

Product Features

- **Extra long reach litter picker**
- **200cm extended reach length**
- Durable lightweight aluminium shaft
- Specially shaped claws for secure gripping
- Suitable for hazardous and awkward waste items
- Impact-resistant head and handle grip
- Easy one-handed operation
- Suitable for indoor and outdoor cleaning applications

Product Benefits

- Allows safe collection of waste from difficult-to-reach areas
- Helps reduce direct contact with
