Lucart L-One Centrefeed Toilet Paper - Mini EcoNatural Recycled Paper - 180m - Case of 12/800 Sheets

Variant code: 01-699

Lucart L-One Centrefeed Toilet Paper - EcoNatural Recycled Paper - 180m - Case of 12/800 Sheets is a **centrefeed toilet tissue solution** developed for controlled dispensing in high-traffic commercial washrooms. Manufactured by Lucart Professional, a brand recognised for sustainable paper production, this product forms part of the EcoNatural range, which utilises recycled materials to support environmentally responsible hygiene systems.

Produced using **EcoNatural recycled paper**, the tissue is designed to balance performance with sustainability. The centrefeed format enables controlled and continuous dispensing when used with compatible Lucart L-One dispensers, helping reduce waste and improve hygiene standards. The roll length of **180 metres** supports extended use, while the case format ensures efficient supply management in professional environments.

Designed for compatibility with the Lucart L-One dispensing system, this product supports a coordinated approach to washroom management. It delivers consistent performance across a range of commercial settings, helping facilities maintain hygiene standards while aligning with sustainability objectives.

Product Features

- **Centrefeed toilet tissue** for controlled dispensing
- Part of the Lucart L-One professional washroom system
- **EcoNatural recycled paper** for sustainable sourcing
- 180 metre roll for extended use
- Compatible with Lucart L-One dispensers
- Supplied in bulk case format for efficient stock management

Product Benefits

- Supports reduced environmental impact
