Lucart L-One Centrefeed Toilet Roll - Pure Pulp Aquastream Fast Breakdown Paper - White - Case of 12/740 Sheet

Variant code: 01-691

Lucart L-One Centrefeed Toilet Roll - Pure Pulp Aquastream Fast Breakdown Paper - White - Case of 12/740 Sheet is a **centrefeed toilet tissue solution** designed for controlled dispensing in high-traffic commercial washrooms. Manufactured by Lucart Professional, a brand recognised for efficient and sustainable washroom systems, this product forms part of the Aquastream range, developed to support rapid paper breakdown in drainage systems.

Produced from **pure pulp fibres**, the tissue delivers a balance of softness and strength while maintaining performance in demanding environments. The **Aquastream technology** enables fast breakdown once in contact with water, making it suitable for washrooms where plumbing efficiency and waste management are key considerations. The centrefeed format allows controlled and continuous dispensing when used with compatible Lucart L-One dispensers, helping reduce waste and maintain hygiene standards.

Designed for integration with the Lucart L-One system, the roll supports consistent performance across a wide range of commercial applications. The white finish provides a clean and neutral appearance suitable for professional washroom environments, while the case format supports efficient stock management.

Product Features

- **Centrefeed toilet tissue** for controlled dispensing
- Part of the Lucart L-One professional washroom system
- **Pure pulp construction** for strength and softness
- **Aquastream fast breakdown technology**
- White finish for clean and neutral presentation
- Compatible with Lucart L-One dispenser

systems

Product Benefits

- Supports efficient waste management with **fast paper breakdown**
- Reduces risk of blockages in drainage systems
- Maintains hygiene through controlled dispensing
- Provides **reliable performance** in high-traffic environments
- Enhances washroom presentation with clean white appearance
- Supports **consistent and efficient** washroom management

Technical Characteristics

- **Centrefeed format** for controlled dispensing
- Manufactured from **pure pulp fibres**
- **Aquastream technology** for rapid breakdown in water
- Compatible with Lucart L-One dispenser systems
- Supplied in case quantities for commercial use
- Store in a clean, dry environment

Applications

Lucart L-One Centrefeed Toilet Roll is suitable for commercial washrooms in offices, hospitality venues, healthcare facilities, education settings and public buildings. It is particularly effective in environments where plumbing systems require fast-dissolving paper to reduce the risk of blockages. The centrefeed format supports controlled usage in high-traffic areas, while the Aquastream technology makes it well suited to facilities prioritising efficient waste management and hygiene standards.
