Mains Cable/Flex 12m - 2 Core Bare Ends with 13A Plug - Orange

Variant code: 16-FLX53

Mains Cable/Flex 12m - 2 Core Bare Ends with 13A Plug is a **high-quality replacement power flex** designed for repairing and replacing damaged mains leads on compatible electrical appliances and commercial cleaning equipment. Featuring a **12-metre black 2-core cable**, a fitted 13A UK plug and bare wire ends, it provides a practical solution for restoring safe and reliable mains power.

Manufactured from durable flexible cable, this replacement lead is suitable for applications where a long power cable is required to maximise working reach. The pre-fitted 13A plug and bare cable ends allow straightforward installation by a suitably qualified person, making it ideal for servicing vacuum cleaners, floor cleaning machines and other compatible equipment.

Built for dependable everyday use, the cable offers excellent flexibility and durability for commercial and domestic environments. Its extended 12m length helps reduce the need to frequently change power sockets, improving productivity during cleaning and maintenance tasks.

Product Features

- Replacement 2-core mains cable
