Makita DHW180 18V Battery Stick Pressure Washer (Body Only)

Variant code: 16-DWH180Z

Makita DHW180 18V LXT® Cordless Pressure Washer: Ultimate Portable Cleaning Power

Take your cleaning game to the next level with the **Makita DHW180 18V LXT Cordless Pressure Washer**. Designed for professionals and DIY enthusiasts who demand mobility without sacrificing performance, this handheld power washer is the perfect addition to your Makita LXT ecosystem.

Whether you're rinsing down a mountain bike after a muddy trail, cleaning site tools, or giving your car a quick valeting, the DHW180 delivers the "hose-free" freedom you've been waiting for.

Key Features & Benefits

- **Dual-Power Modes:** Toggle between High (24 bar) for stubborn dirt and Low (8 bar) for delicate tasks like watering plants or rinsing windows.
- **5-in-1 Multi-Function Nozzle:** No more fumbling with separate attachments. Simply rotate the nozzle head to select between 0°, 15°, 25°, 40°, and Shower spray patterns.
- **Self-Priming Capability:** Don't have a garden tap nearby? No problem. The DHW180 can draw water from a bucket, tank, or even a water bottle (with optional adapter), making it truly portable.
- **XPT (eXtreme Protection Technology):** Engineered for the toughest conditions, XPT provides enhanced dust and water resistance, ensuring your tool lasts through rain and grit.
- **Lightweight & Ergonomic:** Weighing just 2.7kg (with battery), it's designed for one-handed operation to reduce fatigue during extended use.

Technical Specifications

- **Voltage:** 18V LXT®
- **Max Pressure:** 24 bar (348 PSI)
- **Max Water Flow:** 150 L/hr (2.5 L/min)
- **Suction Height:** Up to 2.0 meters
- **Runtime (5.0Ah Battery):**[10] Up to 30 mins (High) / 83 mins (Low)
- **Weight:** 2.3kg – 2.7kg

Makita DHW180 vs. The Competition

When choosing a cordless power washer, most users compare the **Makita DHW180** against the **Worx Hydroshot WG620E**. Here is why the Makita remains the premium choice for serious users:

Feature	Makita DHW180 LXT	Standard Product
Build Quality	Professional-grade (XPT Technology)	Entry-level / Domestic
Battery Ecosystem	Compatible with 270+ LXT® Tools	Limited PowerShare Range
Max Runtime	Up to 83 mins (with 5.0Ah)	Approx. 15–20 mins
Water Source	Tap, Bucket, or Plastic Bottle	Tap or Bucket
Durability	High (Dust & Splash Resistant)	Standard

Why Makita Wins: While the Worx is a popular hobbyist tool, the **Makita DHW180** is built to the standards of the **LXT® platform**. It offers significantly longer runtimes on low-power modes and superior weather sealing (XPT), making it more reliable for trade environments or frequent outdoor use.

Frequently Asked Questions (FAQ)

Q: Can the Makita DHW180 clean a driveway?
A: The DHW180 is a "power washer" designed for light-to-medium cleaning.14 While it is perfect for cars, bikes, and garden furniture, for heavy-duty driveway grime, we recommend a mains-powered Makita pressure washer like the HW111.

Email: info@aukhygiene.com

Q: Do I need a hose connection to use it?
A: No! One of the best features of the DHW180 is its self-priming function.15 You can submerge the included 6m suction hose into any clean water source (like a bucket or water butt) and it will draw the water automatically.

Q: How long does the battery last?
A: With a standard 5.0Ah battery, you get approximately 30 minutes of continuous use on High mode.16 If you switch to Low mode for lighter rinsing, the battery can last over an hour.17

Q: Is it compatible with other Makita batteries?
A: It is fully compatible with all Makita 18V LXT® Lithium-Ion batteries (1.5Ah to 6.0Ah). It is not compatible with G-Series or CXT® batteries.

Property	Value
Weight (kg)	2,3 - 2,7 kg
Pump Flow (Litres per Minute)	5.3
Area of Use	Work sites, Home use, Light-duty washing tasks.
How to Use	Install a compatible 18V LXT battery, connect the water source or use the self-priming function, attach the nozzle and extension, select High or Low mode, and direct the spray onto the surface being cleaned
Power Size	18V LXT Li-Ion Battery
Product format	Cordless Pressure Washer
Battery Type	Li-ion
