Windmill - Touch Scrub - Medium Duty Lime Hand Scrub - 1L

Variant code: 10-805

Windmill - Touch Scrub - Medium Duty Lime Hand Scrub - 1L: The Superior Solution for Industrial Hand Cleaning

Tired of ineffective soaps that barely touch workshop grime? Introducing **Windmill - Touch Scrub - Medium Duty Lime Hand Scrub - 1L** from AUK Hygiene. This is the ultimate, powerful yet skin-friendly solution engineered to tackle medium-duty industrial dirt, grease, and grime, leaving hands perfectly clean and revitalised with a fresh lime scent.

Product Highlights & Key Benefits

- **Powerful Medium Duty Performance:** Specifically formulated to remove common industrial soiling like oil, grease, lubricants, graphite, and general dirt that standard hand soaps cannot. Perfect for workshops, garages, manufacturing, and maintenance environments.
- **Natural Scrubbing Action:** Utilises effective yet gentle scrubber particles (often walnut or wood flour based in similar products) to physically lift ingrained dirt without being harsh on the skin.
- **Refreshing Lime Fragrance:** Leaves hands smelling clean and fresh, counteracting lingering industrial odours.
- **Large 1L Cartridge:** Designed for use with the **Windmill/Touch Hand Care Dispenser** system, offering a hygienic, sealed, and controlled dose to prevent wastage and ensure maximum efficiency.
- **Skin-Friendly Formula:** Unlike harsh solvents or aggressive cleaners, this product is formulated to clean deeply while maintaining skin condition.

Outperforming Alcohol Sanitisers: Why a Scrub is Essential

Alcohol hand sanitisers (even 70%+ alcohol formulas like the *Touch Sanitise - 73% Alcohol Hand Sanitiser*) are essential for killing **germs and bacteria**.[1] However, they are **ineffective for cleaning visibly soiled hands** and removing physical dirt, grease, and grime.

Feature	Windmill - Touch Scrub (This Product)	Bog-Standard Alcohol Hand Sanitiser
Primary Function	**Removes physical dirt, oil, and grime.**	Kills bacteria, viruses, and germs.
Use Case	Visibly soiled hands (workshop, garage, industrial).	Hygienic sanitisation (office, food prep, healthcare).
Cleaning Power	**Excellent.** Lifts ingrained contaminants.	**Zero.** Merely spreads physical dirt around.
Skin Effect	Contains moisturisers/conditioners to prevent drying.	Can cause significant dryness, cracking, and irritation with frequent use.
Rinsing Required	**Yes** (Use with water).	No (Waterless application).

The Bottom Line: If your team's hands are visibly dirty from work, **sanitiser alone is not enough**. You need a powerful **medium duty hand scrub** like Windmill - Touch Scrub to ensure genuine cleanliness and maintain good hand health.

Frequently Asked Questions (FAQ's)

Q1: What is the primary use case for the Windmill - Touch Scrub - Medium Duty Lime Hand Scrub?
A1: The primary use is for the deep cleaning of hands that are moderately soiled with industrial contaminants such as oil, grease, general grime, dust, and lubricants. It is specifically designed for environments like garages, light manufacturing, engineering workshops, and maintenance crews.

Q2: Is this hand scrub a replacement for alcohol-based hand sanitiser?
A2: No, it is not a direct replacement. Alcohol sanitiser is for hygienic control (killing germs) when hands are not visibly dirty. The Windmill - Touch Scrub is a cleaning product used with water

to physically remove visible dirt and stubborn soiling that sanitiser cannot touch. For complete hand hygiene, we recommend a 3-step process: Barrier Cream > Scrub > Reconditioner.

Q3: What makes this a "medium duty" scrub, and is it solvent-free?
A3: "Medium Duty" indicates it has the power to remove most common industrial contaminants without the aggressive formulation of a "Heavy Duty" product (which may contain harsher solvents). It typically uses a water-based formula with fine, natural scrubbing particles, aiming to be a kinder, often solvent-free alternative for frequent use. Please refer to the Safety Data Sheet (SDS) for final solvent status.

Q4: Which dispenser is compatible with this 1L cartridge?
A4: This product is a sealed 1L cartridge refill designed for the proprietary AUK Hygiene Windmill/Touch Hand Care 1L Dispenser. The sealed cartridge design ensures a hygienic, non-drip, and controlled dose every time.3

Q5: What is the benefit of the lime fragrance?
A5: The fresh lime fragrance helps to effectively neutralise and mask the strong, unpleasant odours (like petroleum, oil, or spent coolant) that often cling to hands after working in industrial environments.

Property	Value
Colour	Green
Fragrance	Yes
Size	1L
Weight (kg)	1kg
How to Use	Wet hands, dispense a small amount of soap onto hands, wash thoroughly, rinse and dry carefully.
Antibacterial	No
Virucidal	No
Food Safe	No
Hinge Type	Cartridge
Shelf Life	24 months. Use within 6 months of opening. Store 5°C - 40°C.
Dispensing Dosage	1 x 2ml shot
