

Rubbermaid Microburst® 3000 Dispenser – Black (Requires 2x C Batteries, Not Included)

Variant code: 28-1817130

Rubbermaid Microburst® 3000 Dispenser is a **compact, programmable aerosol odour control system** designed to deliver consistent fragrance and effective odour management in commercial washrooms and public facilities. Combining advanced dispensing technology with a sleek, space-saving design, the Microburst 3000 provides reliable air care performance while helping to reduce maintenance requirements and operating costs.

Designed to be approximately half the size of many standard aerosol dispensers, the Microburst 3000 offers a discreet and modern appearance while maintaining powerful fragrance delivery. The programmable system allows facilities managers to tailor operation according to site requirements, with flexible settings for **12 or 24-hour operation** and **5, 6 or 7-day scheduling options**.

The intelligent proactive display provides clear notifications when either the fragrance refill or batteries require replacement, helping ensure uninterrupted operation and reducing the risk of unexpected downtime. Powered by **2 x C batteries (not included)**, the dispenser offers simple installation and reliable performance in a wide range of environments.

Finished in a stylish **black housing**, the Rubbermaid Microburst® 3000 is an ideal solution for maintaining fresh, pleasant-smelling washrooms, reception areas, offices and public spaces.

Product Features

- **Programmable aerosol odour control dispenser**
- Compact design approximately half the size of standard dispensers
- Flexible programming options
- 12 or 24-hour operating modes
- 5, 6 or 7-day scheduling options
