

Microdot Glove – M – White

Variant code: 22-A080WHRM

An all purpose, highly dexterous 100% Terry cotton glove with three stitched detail on the back giving a more secure fit. PVC dots to the palm area and fingers provide a superior grip

Microdot Glove – Pristine White: The Ultimate All-Purpose Precision Work Glove

The **Microdot Glove in White** is the gold standard for professionals who require a blend of classic aesthetics and modern functionality. Crafted from **100% premium Terry cotton**, these gloves are designed for high-dexterity tasks where touch sensitivity and a secure grip are non-negotiable.

Whether you are working in electronics assembly, high-end inspections, hospitality, or general light-duty handling, the Microdot Glove provides a clean, professional look while ensuring your hands remain comfortable and protected. The standout feature – **PVC microdots** – covers the palm and fingers, transforming a traditional cotton glove into a high-traction tool.

Key Features & Benefits

- **100% Terry Cotton Construction:** Enjoy natural breathability and soft-touch comfort. The Terry knit is excellent at absorbing moisture, keeping your hands dry during focused work.
- **Enhanced PVC Dot Grip:** Specially engineered PVC dots on the palm and fingers provide **superior grip** and traction, making it easy to handle small components, glassware, or delicate tools.
- **Tailored Stitched Detail:** Features **three classic stitched lines** on the back of the hand. This isn't just for style; it creates a structured, more **secure fit** that prevents the glove from shifting during use.
- **High Dexterity:** The lightweight, flexible design allows for a full range of motion, making these the perfect **all-purpose gloves** for intricate tasks.

- **Pristine White Aesthetic:** Ideal for environments where cleanliness and visibility are paramount, such as quality control or formal service.

Technical Specifications

Feature	Detail

Washable	Yes (Hand wash recommended)

Pro-Tips for Peak Performance

- **The Inspection Edge:** These are excellent **inspection gloves**. The white fabric immediately shows dirt or oil, helping you ensure that the products you are handling remain uncontaminated.
- **Layering Potential:** Because they are 100% cotton, these can be used as a comfortable **glove liner** under heavier rubber or nitrile gloves to absorb sweat and prevent skin irritation.
- **Precision Handling:** Use these when dealing with smooth surfaces like glass or polished metal; the PVC dots prevent the "slipping" common with standard cotton gloves.

Frequently Asked Questions (FAQs)

Q: Do these gloves come in different sizes?**A:** Yes, these are typically available in a range of sizes. Because of the Terry cotton's natural stretch and the **three-stitched detail**, they offer a more tailored fit than standard "one-size" cotton gloves.

Q: Are the PVC dots durable?**A:** Absolutely. The dots are heat-bonded to the cotton fibres, ensuring they stay attached even after repeated use and light washing.

Q: Can these be used for touchscreen devices?**A:** While not specifically designed for screens, the high dexterity and thin profile often

allow for basic touchscreen interaction without removing the gloves.

Q: Are they lint-free?A: While Terry cotton is low-linting, for ultra-sensitive cleanroom environments, we recommend a pre-wash to ensure any loose fibres are removed.
