Microfibre Vacuum Bags for Makita DVC260Z Backpack - Pack of 10

Variant code: 16-SDB524

Microfibre Vacuum Bags for Makita DVC260Z Backpack are **high-performance replacement dust bags** designed specifically for the **Makita DVC260Z Backpack Vacuum Cleaner**. Manufactured from advanced microfibre filtration material, these premium dust bags provide superior dust retention, improved airflow and consistent suction performance while supporting cleaner and more hygienic vacuum operation.

The durable multi-layer microfibre construction effectively captures fine dust, dirt and airborne particles while resisting tearing under demanding commercial use. Unlike conventional paper bags, the microfibre material maintains excellent airflow as the bag fills, helping the vacuum cleaner deliver reliable cleaning performance for longer.

Supplied as a convenient **pack of 10**, these replacement dust bags offer a cost-effective solution for routine maintenance. Easy to install and dispose of, they help maximise vacuum efficiency, protect the machine's filtration system and minimise downtime in busy cleaning environments.

Product Features

- Replacement microfibre dust bags for Makita DVC260Z backpack vacuum cleaner
- Advanced multi-layer microfibre filtration
- Excellent fine dust and debris retention
- Maintains strong airflow and suction performance
- Durable tear-resistant construction
- Supports hygienic dust disposal
- Quick and easy to install
- Supplied as a pack of 10

Product Benefits

- **Provides superior filtration compared to standard paper bags**
- **Maintains powerful suction for longer during use**
- **Captures fine dust to improve indoor**
