Miele Type Vacuum Dust Bags - Type GN

Variant code: 16-369

Miele Type GN Microfibre Vacuum Dust Bags are **high-performance replacement dust bags** designed for use with compatible **Miele vacuum cleaners that use Type GN bags**. Manufactured from advanced multi-layer microfibre material, these dust bags provide superior dust retention, improved airflow and enhanced filtration compared to conventional paper bags, helping to maintain powerful suction throughout the cleaning process.

The durable microfibre construction efficiently captures fine dust, allergens and everyday debris while allowing consistent airflow to the vacuum motor. This helps maximise cleaning performance, protect the motor from dust ingress and extend the service life of the vacuum cleaner. The robust material is also more resistant to tearing than standard paper bags, ensuring hygienic dust containment and easy disposal when full.

Designed as direct replacements for Miele Type GN bags, they fit securely into compatible vacuum cleaners for quick and hassle-free installation. Ideal for both domestic and commercial cleaning, these replacement dust bags provide reliable performance and excellent value.

Product Features

- **Miele Type GN vacuum dust bags**
- Advanced multi-layer microfibre construction
- Superior dust and fine particle filtration
- Maintains consistent airflow and suction
- Strong, tear-resistant material
- Hygienic dust collection and disposal
- Easy to install and replace
- Suitable for compatible Miele Type GN vacuum cleaners

Product Benefits

- **Maintains powerful vacuum suction for longer**
- **Captures fine dust and allergens effectively**
- **Helps protect the vacuum motor from dust ingress**
