

Modu Pro Foam Soap Dispenser – 800ml Pouch – Black/Brushed Metal Effect

Variant code: MC800F

The **Modu Pro Foam Soap Dispenser** is a stylish and versatile hand care dispenser designed for professional and commercial washrooms. Configured for **foam soap** with an **800ml pouch**, the dispenser combines practical hand hygiene dispensing with a sophisticated **black and brushed metal effect** appearance suited to contemporary washroom environments.

The dispenser uses a **0.6ml foam pump** and forms part of a flexible modular dispensing system that can accommodate different hand care formats. Its modular construction allows the pump configuration to be adapted to changing requirements, providing a practical long-term solution for facilities where washroom needs may evolve over time.

Designed with sustainability in mind, the dispenser features a **cover and backplate manufactured using recycled plastic**, helping to reduce the use of virgin plastic. Combining an elegant appearance with flexible dispensing and straightforward servicing, it is particularly suitable for **executive offices, hotels, restaurants, bars and other premium commercial washrooms**.

Product Features

- **Professional foam soap dispenser** for commercial washrooms
