MotorScrubber Coiled Battery Cable

Variant code: 16-MS3009

MotorScrubber MS3009 Coiled Battery Cable is a **genuine replacement battery connection cable** designed for use with **MotorScrubber JET3, M3 and SHOCK cleaning systems**. Engineered to provide a secure and reliable connection between the battery backpack and cleaning machine, this coiled cable ensures consistent power delivery during demanding commercial cleaning operations.

Featuring a practical **110cm coiled design**, the cable extends when required while remaining compact during use, helping to minimise cable snagging and improve operator movement. The coiled construction also helps protect the cable from unnecessary wear, contributing to improved durability and a longer service life.

Designed specifically for compatibility with MotorScrubber battery backpack systems, the MS3009 cable provides dependable performance and seamless integration with compatible machines. Whether replacing a damaged cable or keeping a spare available for maintenance purposes, this genuine accessory helps keep equipment operating efficiently.

Manufactured to MotorScrubber's professional standards, the Coiled Battery Cable is built to withstand the demands of daily commercial cleaning environments while maintaining reliable power transfer between the battery and machine.

Product Features

- **Genuine MotorScrubber MS3009 battery cable**
- Compatible with **JET3, M3 and SHOCK**
- Designed for MotorScrubber battery backpack systems
- **110cm coiled cable design**
- Secure battery-to-machine connection
- Durable commercial-grade construction
- Flexible and easy to use

Product Benefits

- **Provides reliable power transfer during operation**
