MotorScrubber - Delicate Cleaning Brush

Variant code: 16-MS1038

MotorScrubber Delicate Surface Cleaning Brush is a genuine replacement brush specifically designed for cleaning delicate floor surfaces and light-duty applications. Featuring soft bristles, this brush provides gentle yet effective agitation, making it ideal for **short-pile commercial carpets, stairs and other sensitive surfaces** where powerful scrubbing could cause damage.

Engineered to work seamlessly with MotorScrubber cleaning machines, the delicate cleaning brush is particularly effective for **pre-agitating carpets before extraction cleaning**. The soft bristles help loosen embedded dirt and debris, allowing carpet extraction machines to achieve deeper, more efficient cleaning while helping preserve carpet fibres and appearance.

Manufactured for professional commercial use, this genuine MotorScrubber accessory is easy to install and replace, providing reliable performance for routine carpet maintenance and delicate surface cleaning. It is the ideal choice for operators requiring effective cleaning without compromising sensitive floor finishes.

Product Features

- Genuine MotorScrubber delicate surface cleaning brush
- Soft bristle construction for delicate surfaces
- Ideal for short-pile commercial carpets and stairs
- Excellent for pre-agitating carpets before extraction cleaning
- Gentle cleaning action helps protect carpet fibres
