MotorScrubber - Melamine Sponge Cleaning Pads - Pack of 5

Variant code: 03-MS1070

The **MotorScrubber Melamine Sponge Cleaning Pads** are specialist floor cleaning pads designed to remove **scuff marks, surface marks and everyday soiling** from a variety of washable, smooth hard flooring surfaces. Developed for use with the **MotorScrubber JET3 and M3 Rotary Scrubbing Machines**, these melamine pads provide an effective cleaning solution for maintaining hard floors in commercial, industrial and professional environments.

Featuring a **melamine sponge cleaning surface**, the pads help lift marks from suitable flooring through mechanical scrubbing action. They are designed for **wet cleaning applications** and can be used on **marble, stone, concrete, terrazzo, tiles and hardwood**, provided the surface is smooth, washable and suitable for the cleaning method. Their specialist cleaning action makes them particularly useful for removing visible scuffs and marks that affect the appearance of regularly used floors.

Supplied in a convenient **pack of 5 pads**, the MotorScrubber Melamine Sponge Cleaning Pads are suitable for professional cleaning contractors, facilities management teams and organisations using the **JET3 or M3 cleaning systems**. They provide a dedicated replacement accessory for regular floor maintenance, helping operators maintain clean and presentable hard floors across a range of workplace and public environments.

- **Suitable Floor Materials:** Marble, Stone, Concrete, Terrazzo, Tiles and Hardwood
- **Primary Application:** Scuff and Surface Mark Removal
- **Additional Application:** Hard Floor Cleaning and Maintenance
- **Pack Quantity:** 5 Pads
- **Packaging:** Pack of 5

Applications

The **MotorScrubber Melamine Sponge Cleaning Pads - Pack of 5** are designed for **wet cleaning and scuff mark removal** from smooth, washable hard floors in environments such as **offices, schools, hotels, hospitals, retail premises, shopping centres, corridors and commercial buildings**. When fitted to a compatible **MotorScrubber JET3 or M3 Rotary Scrubbing Machine**, the pads help remove visible marks and everyday soiling from suitable **marble, stone, concrete, terrazzo, tiled and hardwood flooring**. They are particularly useful where floor appearance needs to be maintained without undertaking a full restoration process. For best results, use the pads wet, confirm that the surface is washable and suitable for melamine cleaning, and follow the flooring and machine manufacturers' recommendations. Test on an inconspicuous area before treating delicate, polished or coated surfaces.
