MotorScrubber - Microfibre Multipurpose Cleaning Pad - 22cm - For MotorScrubber JET3

Variant code: 16-MS1053

MotorScrubber Microfibre Multipurpose Cleaning Pad is a **versatile 22cm cleaning and polishing pad** designed for use with the **MotorScrubber JET3 Battery Powered Rotary Scrubbing Machine**. Engineered to deliver exceptional finishing, polishing and spot-cleaning performance, this genuine MotorScrubber accessory is ideal for a wide range of cleaning tasks across commercial and professional environments.

Manufactured from high-quality microfibre material, the pad is particularly effective for polishing and finishing surfaces, leaving them clean, streak-free and professional in appearance. It can be safely used on **glass, mirrors and stainless steel**, making it a versatile solution for detailed cleaning and surface maintenance.

In addition to hard surface polishing, the microfibre pad is suitable for **spot-cleaning carpets** and can also be used to help dry carpets following cleaning with the MotorScrubber delicate brush. Its excellent absorbency and gentle cleaning action make it ideal for applications where surface protection and appearance are important.

Designed for durability and repeated professional use, the 22cm Microfibre Multipurpose Cleaning Pad enhances the flexibility of the MotorScrubber JET3, allowing operators to tackle a wider variety of cleaning and finishing tasks with a single machine.
