MotorScrubber M3 - Battery Powered Backpack Scrubbing Machine - With Medium Handle

Variant code: 16-M3M

MotorScrubber M3 is a **lightweight battery-powered backpack scrubbing machine** designed to deliver powerful cleaning performance in confined, awkward and hard-to-reach areas. Combining a compact backpack battery system with a high-torque scrubbing head, the M3 provides exceptional manoeuvrability and professional cleaning results where larger floor machines cannot operate effectively.

The lightweight **2.5kg backpack battery unit** powers the machine for up to **4 hours of continuous operation**, giving users complete freedom from trailing cables while maintaining excellent productivity. Delivering a powerful **354rpm high-torque scrubbing action**, the M3 effectively removes dirt, grime and contamination from floors, walls, washrooms and other difficult-access surfaces.

Built in the UK to exceptionally high standards, the M3 is designed for durability, reliability and long service life. The fully adjustable handle and brush head angle allow operators to clean comfortably in a wide variety of positions, while the waterproof scrubbing head can be submerged in water for specialist cleaning applications, including poolside and underwater line cleaning.

Supplied with a **medium handle**, the MotorScrubber M3 is an ideal solution for professional cleaners working in healthcare facilities, washrooms, leisure centres, commercial buildings and other environments where precision cleaning is essential.

Product Features

- **Battery-powered backpack scrubbing machine**
- Supplied with **medium handle**
- Lightweight **2.5kg backpack battery system**
- Up to **4 hours runtime**
- Powerful **354rpm high-torque motor**
- Fully adjustable handle length

- Adjustable brush head angle
- Fully waterproof scrubbing head
- Built in the UK
- Suitable for confined and hard-to-reach areas

Product Benefits

- **Provides powerful scrubbing performance in tight spaces**
- **Cordless operation improves safety and manoeuvrability**
- **Up to 4 hours runtime maximises productivity**
- Adjustable design improves operator comfort
- Waterproof head allows specialist cleaning applications
- Lightweight backpack reduces user fatigue
- Ideal for cleaning areas inaccessible to larger machines

Technical Characteristics

- Model: **MotorScrubber M3**
- Power Source: **Battery Powered**
- Runtime: **Up to 4 Hours**
- Motor Speed: **354rpm**
- Battery Unit Weight: **2.5kg**
- Handle Type: **Medium Handle**
- Brush Head: **Fully Waterproof**
- Handle Adjustment: Fully Adjustable
- Head Angle Adjustment: Yes
- Manufactured in the UK

Applications

MotorScrubber M3 is ideal for **washrooms, healthcare facilities, swimming pools, leisure centres, schools, commercial kitchens, transport hubs, hospitality venues and commercial buildings**. Perfect for cleaning **behind toilets, under benches, around pipework, stairways, wall surfaces, pool edges, confined spaces and hard-to-reach areas**, it delivers professional scrubbing performance wherever conventional floor cleaning equipment cannot easily reach.
