

MotorScrubber – Pad Holder Drive Board

Variant code: 16-MS1046

MotorScrubber Pad Holder Drive Board is a genuine replacement **Velcro® drive plate** designed for use with **MotorScrubber cleaning machines**. Engineered to securely hold all compatible MotorScrubber cleaning pads, this drive board provides a firm attachment for fast, efficient pad changes while ensuring optimum cleaning performance across a wide range of floor surfaces.

Featuring a durable hook-and-loop (Velcro®) surface, the drive board allows cleaning pads to be attached and removed in seconds without the need for tools. The robust construction ensures reliable pad retention during operation, making it ideal for demanding commercial cleaning applications where productivity and performance are essential.

Designed for professional use, the MotorScrubber Pad Holder Drive Board is suitable for use with the full range of MotorScrubber cleaning pads, enabling users to switch quickly between scrubbing, polishing and cleaning tasks while maintaining maximum machine efficiency.

Product Features

- Genuine MotorScrubber pad holder drive board
- Velcro® drive plate for secure pad attachment
- Compatible with all MotorScrubber cleaning pads
- Quick pad changes without tools
- Strong hook-and-loop fastening system
- Durable commercial-grade construction
- Maintains secure pad retention during operation
- Easy to install and replace

Product Benefits

- **Allows fast and secure attachment of cleaning pads**
- **Compatible with the full range of MotorScrubber pads**
- **Improves productivity through rapid pad changes**

- Provides reliable pad retention during operation
- Supports consistent cleaning performance
- Durable construction withstands heavy commercial use
- Reduces machine downtime during maintenance
- Ideal for professional floor cleaning applications

Technical Characteristics

- Product Type: Pad Holder Drive Board
- Attachment Type: Velcro® Hook-and-Loop Drive Plate
- Compatibility: All MotorScrubber Cleaning Pads
- Application: Pad Attachment for Floor Cleaning
- Installation: Direct Replacement
- Construction: Heavy-Duty Commercial Design
- Suitable for Commercial Cleaning Equipment
- Replacement Machine Accessory

Applications

The MotorScrubber Pad Holder Drive Board is ideal for **commercial cleaning contractors, healthcare facilities, schools, hotels, leisure centres, retail premises, food production environments and facilities management teams**. Designed for use with **all MotorScrubber cleaning pads**, it enables quick changes between **scrubbing, polishing, deep cleaning and floor maintenance tasks**, helping operators maximise productivity while achieving professional cleaning results.
