MotorScrubber Replacement Quick Change Battery - 12V / 7A

Variant code: 16-MS12V7ADC

MotorScrubber Quick Change Replacement Battery is a **genuine 12V 7Ah rechargeable battery pack** designed specifically for the latest **MotorScrubber M3 and JET3 cleaning machines**. Engineered to provide reliable cordless power, this replacement battery helps maintain machine performance and productivity while ensuring uninterrupted cleaning operations in demanding commercial environments.

Featuring a **quick-release connector**, the battery can be removed and replaced quickly and easily, allowing operators to swap batteries in seconds and minimise downtime during cleaning tasks. This convenient design makes it ideal for busy cleaning teams who require continuous machine availability throughout the working day.

Manufactured to deliver dependable power output and consistent runtime, the battery supports the high-performance operation of MotorScrubber equipment while maintaining the portability and flexibility of cordless cleaning. Whether replacing an existing battery or carrying a spare for extended shifts, it provides a practical solution for maximising machine uptime.

As a genuine MotorScrubber accessory, the Quick Change Battery ensures perfect compatibility, reliable operation and long-lasting performance with the latest M3 and JET3 models.

Product Features

- **12V 7Ah rechargeable replacement battery**
- Designed for **MotorScrubber M3 and JET3 models**
- Quick-release battery connector
- Fast and easy battery replacement
- Genuine MotorScrubber accessory
- Reliable cordless power supply
- Professional-grade construction

Product Benefits

- **Provides dependable power for**
