MotorScrubber - STORM - Sanitiser Sprayer to Fit JET3 Backpack

Variant code: 16-MSSTORM

MotorScrubber STORM Sanitiser Sprayer is a professional touch point disinfection system designed to work seamlessly with the **MotorScrubber JET3 Backpack System**. Engineered to deliver targeted sanitiser application, STORM provides an efficient solution for proactive infection prevention and hygiene management across high-touch surfaces in commercial, healthcare and public environments.

When connected to the MotorScrubber JET3 backpack, the STORM sprayer delivers controlled, targeted application of sanitising solutions directly onto frequently touched surfaces. This enables operators to quickly disinfect door handles, handrails, lift buttons, desks, tables, counters and other high-contact areas, helping reduce the spread of viruses and bacteria while improving cleaning efficiency.

Manufactured to MotorScrubber's high standards, the STORM system is lightweight, durable and easy to integrate with the JET3 backpack platform. It provides cleaning professionals with a fast, portable and effective touch point disinfection solution, making it an ideal addition to any professional infection control programme.

Product Features

- Genuine MotorScrubber STORM sanitiser sprayer
- Designed to fit the MotorScrubber JET3 Backpack System
- Targeted touch point sanitiser application
- Portable backpack-mounted operation
- Fast and efficient disinfectant delivery
- Lightweight and ergonomic design
- Durable commercial-grade construction
- Ideal for proactive infection prevention programmes

Product Benefits

- **Provides fast targeted disinfection of high-touch surfaces**

Tel: 01626 355177
Email: info@aukhygiene.com

- **Supports proactive virus and bacteria control programmes**
- **Works seamlessly with the MotorScrubber JET3 backpack system**
- Improves operator productivity through portable application
- Ideal for rapid sanitising of frequently touched areas
- Lightweight design reduces operator fatigue
- Suitable for routine and emergency hygiene cleaning
- Genuine MotorScrubber accessory ensures reliable compatibility

Technical Characteristics

- Product Type: Backpack Sanitiser Sprayer
- Compatibility: MotorScrubber JET3 Backpack System
- Application: Touch Point Disinfection
- Operation: Portable Backpack-Mounted Sprayer
- Construction: Heavy-Duty Commercial Design
- Use: Professional Sanitiser Application
- Installation: Direct Fit Accessory
- Genuine MotorScrubber Accessory

Applications
