MotorScrubber Tile & Grout Brush - Heavy-Duty Grout Restoration Brush for JET3

Variant code: 16-MS1039TG

MotorScrubber Tile & Grout Brush is a **specialist heavy-duty scrubbing brush** designed for use with the **MotorScrubber Battery Powered JET3 Backpack Rotary Scrubbing Machine**. Engineered specifically for deep tile cleaning and grout restoration, this brush delivers exceptional scrubbing performance on hard surfaces where dirt, grime and staining accumulate within grout lines and textured flooring.

Featuring **abrasive grit filaments**, this is the **most aggressive brush in the MotorScrubber brush range**, providing powerful mechanical action for removing embedded dirt and restoring heavily soiled grout. The specialised filament design penetrates grout lines and textured surfaces more effectively than standard brushes, helping to restore the original appearance of tiled floors and walls.

Ideal for professional cleaning and restoration tasks, the Tile & Grout Brush enhances the cleaning power of the JET3 machine, making it particularly effective in areas where hygiene and appearance are critical. Its robust construction ensures durability and long-lasting performance in demanding commercial environments.

As a genuine MotorScrubber accessory, the Tile & Grout Brush is designed for seamless compatibility with the JET3 system, helping operators achieve professional-grade tile and grout cleaning results with maximum efficiency.

Product Features

- **Specialist tile and grout cleaning brush**
- Designed for the **MotorScrubber JET3 Backpack Rotary Scrubbing Machine**
- Features **abrasive grit filaments**
- Most aggressive brush in the MotorScrubber range
- Ideal for grout restoration and deep cleaning
