Windmill - Touch Scrub - Heavy Duty Hand Scrub -1L

Variant code: 10-800

Windmill - Touch Scrub - Heavy Duty Hand Scrub - 1L: The Ultimate Solution for Hard-Working Hands

Tired of harsh chemicals and standard soaps that just can't cut through industrial grime? Introducing **Windmill - Touch Scrub - Heavy Duty Hand Scrub - 1L** from AUK Hygiene—the essential cleaning solution engineered for the most demanding environments. This powerful, yet skin-kind, scrub effectively removes stubborn dirt, grease, oil, paint, and manufacturing residue, leaving hands thoroughly clean, refreshed, and conditioned.

Product Features & Benefits

- **Maximum Cleaning Power:** A specialised heavy-duty formula with embedded scrubbers (often natural, like walnut shell or cornmeal) provides deep mechanical cleaning action, quickly breaking down and lifting contaminants that regular soap can't touch.
- **Industrial Strength:** Designed specifically for **workshops, garages, mechanical facilities, manufacturing plants, construction sites,** and any environment where hands encounter **heavy grease, oil, paint, adhesives, or ingrained dirt.**
- **Skin-Kind Formulation:** Despite its strength, the formula is gentle on the skin. It includes moisturising agents to prevent the dryness and cracking often associated with industrial cleaners and aggressive scrubbing.
- **Easy Dispensing:** Packaged in a convenient 1L cartridge for use with a dedicated liquid dispenser, ensuring controlled dosing (approx. 2.0ml per shot), minimal waste, and a hygienic, mess-free refill process.
- **Cost-Effective:** The concentrated formula and controlled dispensing

system deliver superior results with less product, offering excellent value for commercial and industrial use.

- **Pleasant Scent (If applicable):** Leaves hands with a fresh, clean scent, combating strong odours associated with industrial contaminants.

Touch Scrub vs. Bog Standard Alcohol Hand Sanitiser

In industrial environments, the needs of your workforce go far beyond simple germ reduction. Alcohol-based hand sanitisers are excellent for killing germs on *clean* hands but are **ineffective** against physical dirt, grease, and grime.

Feature	Windmill - Touch Scrub - Heavy Duty Hand Scrub	Standard Alcohol Hand Sanitiser
Primary Function	**Removes** heavy dirt, oil, grease, paint, and grime.	**Kills** germs on clean hands.
Required for...	Visibly soiled or greasy hands.	Hands that are *not* visibly soiled, or as a supplement to washing.
Cleaning Action	Mechanical scrubbing action with surfactants and emollients.	Chemical (alcohol) disinfection action.
Effectiveness on Oil/Grease	**Highly Effective.** Specially formulated to emulsify and lift heavy contaminants.	**Ineffective.** Cannot penetrate or remove grease and oil; simply smears it around.
Skin Impact	Contains moisturisers/conditioners to prevent industrial dermatitis.	High alcohol content can cause dryness, cracking, and irritation with frequent use.

Choose Touch Scrub when your hands are visibly dirty. It performs the essential task of cleaning contaminants that can host bacteria and cause skin irritation, a job that alcohol sanitisers are simply not designed for.

Frequently Asked Questions (FAQs)

Tel: 01626 355177
Email: info@aukhygiene.com

Q1: What is Windmill - Touch Scrub used for?
A1: Windmill - Touch Scrub is a heavy-duty hand cleaner formulated to remove stubborn industrial soiling, such as oil, grease, paint, carbon, adhesives, and ingrained dirt, from the hands of mechanics, engineers, and manufacturing workers.

Q2: Does the Touch Scrub contain plastic microbeads?
A2: No, high-quality heavy-duty hand scrubs like Windmill - Touch Scrub typically use natural scrubbing agents, such as refined cornmeal, walnut shells, or polymer beads, avoiding harmful plastic microbeads.

Q3: How is the 1L cartridge dispensed?
A3: The 1L cartridge is designed for use in a specialised, wall-mounted liquid dispenser (often part of the Windmill Touch range) which provides a hygienic and measured dose per use, preventing wastage and mess.

Q4: Is this product kind to skin?
A4: Yes, while it is heavy-duty, it contains emollients and conditioning agents to help protect the skin's natural barrier, preventing the dryness and chapping that can result from harsh cleaning in industrial settings.

Q5: Can I use this instead of an alcohol hand sanitiser?
A5: No. Touch Scrub is a cleanser that removes physical dirt and soil with water. Alcohol sanitiser is a disinfectant for use on visibly clean hands to kill germs when soap and water are unavailable. They serve two different, distinct hygiene functions.

A heavy duty hand cleaner with scrubbers for the most demanding environments like workshops, mechanical and manufacturing facilities. Everything you love with Rinax Plus lives on with Move It All heavy duty hand scrub, with much improved dispensing for a more reliable experience. Dispensed in a liquid 1L dispenser with an easy to replace pouch function, this is a hand soap that will clean the hardest working hands. Approximately 2.0ml per shot. Ask us for a trial.
