Compostable Bin Liners - 80L - Roll of 10 x 40 - Case of 400

Variant code: 18-VBL80

Compostable Bin Liners are durable and environmentally responsible **80 litre waste bags** designed for hygienic collection and disposal of organic and compostable waste materials. Manufactured from certified compostable materials, these large-capacity liners provide a sustainable alternative to traditional plastic waste bags while supporting efficient composting and waste reduction programmes.

Designed for use with standard **80 litre bins**, these compostable liners offer dependable strength and tear resistance for handling food waste, garden waste and other organic materials. Their certified compostable construction allows the liners to break down naturally in commercial composting facilities without leaving harmful residues behind. Supplied in a convenient roll format, the perforated liners allow easy dispensing and efficient storage for high-use environments.

Supplied in a cost-effective **case of 400 liners**, packed as **10 rolls of 40 bags**, these compostable waste liners provide a practical and sustainable waste management solution for commercial, educational and domestic environments focused on environmentally responsible disposal practices.

Product Features

- **Compostable bin liners**
- **80 litre capacity**
- Manufactured from certified compostable material
- Suitable for food and organic waste collection
- Strong and tear-resistant construction
- Easy-dispense perforated roll format
- Designed for standard 80L bins
- **Case quantity: 400 liners (10 rolls x 40)**

Product Benefits

- Provides hygienic and sustainable waste disposal
- Supports composting and organic recycling programmes
- Helps reduce landfill waste and plastic usage

- Large capacity suitable for high-volume waste collection
- Convenient roll format allows easy storage and dispensing
- Cost-effective bulk solution for commercial use
- Promotes environmentally responsible waste management practices

Technical Characteristics

- **80L compostable waste liners**
- Certified biodegradable and compostable material
- Suitable for food and garden waste
- Strong leak-resistant construction
- Perforated easy-tear roll format
- Compatible with standard 80 litre bins
- Designed for commercial and domestic composting applications
- **Supplied as 10 rolls of 40 liners**

Applications

Compostable Bin Liners are ideal for kitchens, cafés, restaurants, schools, offices, hospitality venues, local authorities and waste management environments requiring sustainable organic waste disposal solutions. Their large 80 litre capacity makes them particularly suitable for food waste collection, composting systems and environmentally conscious waste segregation programmes.
