Nilfisk Disposable Filter Bags for Attix 7 - Pack of 5

Variant code: 16-302001484

Nilfisk Disposable Filter Bags for Attix 7 are **genuine replacement filter bags** designed specifically for the **Nilfisk ATTIX 7 Vacuum Cleaner**. Manufactured from high-quality fleece filtration material, these premium bags provide superior dust retention, excellent airflow and reliable vacuum performance in demanding commercial and industrial environments.

The advanced fleece construction captures fine dust, dirt and debris more effectively than traditional paper bags, helping to maintain consistent suction power throughout the bag's lifespan. The durable material resists tearing and bursting, ensuring dependable operation and hygienic disposal of collected waste.

Designed to protect the vacuum's filtration system while maximising cleaning efficiency, these genuine Nilfisk replacement bags help reduce maintenance requirements and support cleaner working environments. Supplied as a convenient **pack of 5**, they offer a practical solution for routine machine maintenance and professional cleaning applications.

Product Features
