Nilfisk SC250 - Battery Powered Scrubber Dryer

Variant code: 16-SC250

Nilfisk SC250 Battery Powered Scrubber Dryer is a compact and highly productive floor cleaning machine designed to deliver fast, effective cleaning of hard floors in confined and busy environments. Combining sweeping, scrubbing and drying in a single operation, the SC250 provides outstanding cleaning performance while offering the manoeuvrability needed to reach corners, clean beneath furniture and work efficiently in areas where larger machines cannot operate.

Powered by advanced **36V lithium battery technology**, the SC250 offers quiet operation and complete cordless freedom, making it ideal for daytime cleaning in schools, shops, restaurants, cafés, hotels and other public environments. Its **34cm cylindrical brush** effectively removes debris, dirt and fine dust particles while simultaneously scrubbing and drying the floor. For specialist applications, an optional microfibre roller is available for enhanced floor cleaning performance.

The innovative design allows cleaning in both forward and reverse directions, increasing productivity and reducing cleaning times. Operators can lift the front squeegee during operation to collect larger debris without interrupting cleaning. **Dual solution flow settings** allow water usage to be adjusted according to the task, helping reduce operating costs while maintaining excellent cleaning results. The tank-in-tank design simplifies emptying and refilling, whilst the ergonomic adjustable handle, OneTouch controls and informative display ensure intuitive operation.

With up to **40 minutes of runtime** from its 6-litre solution and recovery tank system, the SC250 delivers efficient and reliable cleaning performance. Easy maintenance, tool-free servicing and low total cost of ownership make it an ideal solution for professional cleaning teams.

Product Features

Tel: 01626 355177
Email: info@aukhygiene.com

- **Sweeps, scrubs and dries in a single pass**
- Powerful 36V lithium battery technology
- 34cm cylindrical brush cleaning system
- Forward and reverse cleaning capability
- 6L solution and recovery tank capacity
- Adjustable ergonomic handle with OneTouch controls
- Dual solution flow settings
- Compact, lightweight and highly manoeuvrable design

Product Benefits

- Improves productivity by cleaning in both directions
- Removes debris, dust and dirt in one operation
- Provides up to 40 minutes of cleaning without refilling
- Quiet battery-powered operation suitable for daytime cleaning
- Accesses corners, edges and areas beneath furniture
- Reduces water consumption and operating costs
- Easy maintenance with low total cost of ownership

Technical Characteristics

- **36V lithium battery-powered operation**
- 34cm cylindrical brush system
- 6L solution tank and 6L recovery tank
- Forward and backward cleaning functionality
- Two adjustable solution flow settings
- **OneTouch control system**
- Up to 40 minutes working time per fill
- Tool-free maintenance design

Applications

Nilfisk SC250 Battery Powered Scrubber Dryer is ideal for retail stores, schools, restaurants, cafés, bakeries, fast food outlets, hotels, healthcare facilities, contract cleaning companies and commercial premises requiring efficient, quiet and professional hard floor cleaning in confined or high-traffic areas.
