Nilfisk SC351 - 14 Inch Disc Battery Scrubber Dryer

Variant code: 16-SC351

Nilfisk SC351 is a compact and highly manoeuvrable **battery scrubber dryer** designed to deliver professional floor cleaning performance in confined and hard-to-reach areas. Combining scrubbing and drying in a single operation, this innovative machine offers exceptional flexibility thanks to its ability to clean effectively in both forward and reverse directions, making it ideal for environments where space is limited.

Equipped with a powerful scrubbing system and an impressive **27kg brush pressure**, the SC351 effectively removes dirt, grime and contaminants from a wide range of hard floor surfaces. Its unique rotating squeegee system follows the brush during operation and automatically adjusts when cleaning in reverse, allowing operators to clean beneath tables, benches, shelving and other obstacles with ease. The machine's compact design, intuitive controls and onboard charger make it simple to operate and maintain, while the battery-powered platform eliminates trailing cables and improves operator safety.

Supplied complete with charger, battery, drive board and brush, the SC351 provides a complete cleaning solution for facilities seeking professional cleaning performance combined with exceptional manoeuvrability. Its efficient scrubbing and drying capabilities help reduce cleaning times while maintaining high standards of floor hygiene.

Product Features

- **Battery-powered scrubber dryer** for professional floor cleaning
- Cleans and dries in both **forward and reverse directions**
- **27kg brush pressure** for effective dirt removal
- Rotating squeegee follows the brush for efficient water recovery
- Compact design ideal for confined and congested areas
- Supplied with charger, battery, drive board and brush
- Easy-to-use controls and onboard charger for convenient operation

Product Benefits

- Improves productivity by washing and drying in a single pass
- Provides excellent cleaning performance in restricted spaces
- Reduces manual cleaning requirements around obstacles and furniture
- Supports safer operation through cordless battery-powered cleaning
- Minimises floor downtime with effective water recovery
- Enhances hygiene standards through powerful scrubbing action
- Simplifies operator training with intuitive controls and handling

Technical Characteristics

- Professional walk-behind battery scrubber dryer
- Capable of cleaning in both forward and backward directions
- Rotating squeegee system adapts to cleaning direction
- Suitable for cleaning under benches, tables and fixtures
- Onboard charging system for convenient battery maintenance
- Supplied complete with battery, charger, drive board and brush
- Designed for routine and intensive floor maintenance programmes

Applications

Nilfisk SC351 is ideal for schools, healthcare facilities, retail stores, hospitality venues, warehouses, public buildings and commercial premises where manoeuvrability and efficient floor cleaning are essential. Its compact footprint and reverse cleaning capability make it particularly effective in congested areas, narrow aisles and spaces beneath furniture where larger scrubber dryers cannot easily operate. The machine provides a practical solution for maintaining clean, safe and hygienic hard floor surfaces in demanding professional environments.
