Nilfisk SC100 - Mains Powered Upright Scrubber Dryer

Variant code: 16-SC100

Nilfisk SC100 Upright Scrubber Dryer is a compact and highly efficient floor cleaning machine designed to deliver superior cleaning performance in small and confined areas. Offering a significant upgrade from traditional mop-and-bucket cleaning, the SC100 scrubs and dries floors in a single pass, leaving surfaces clean, dry and ready for immediate use while improving hygiene and productivity.

Ideal for small shops, schools, restaurants, cafés, hotels, bakeries, petrol stations and contract cleaning applications, the SC100 combines powerful cleaning performance with exceptional ease of use. Its ergonomic handle allows comfortable one or two-handed operation, whilst the **lightweight 12kg** design makes it easy to carry, transport and store. The compact footprint, low-profile deck and offset cleaning head enable access to difficult-to-reach areas where larger scrubber dryers cannot operate.

Unlike traditional cleaning methods that spread dirty water across the floor, the SC100 uses only clean solution during operation, helping to maintain higher hygiene standards and reduce the spread of dirt and bacteria. Two solution flow settings provide efficient water usage, whilst the red LED indicator alerts operators when the solution tank requires refilling. The flat recovery tank design offers full access for quick and thorough cleaning, ensuring easy maintenance and optimum machine performance.

Product Features

- **Scrubs and dries floors in a single pass**
- Compact upright scrubber dryer design
- Lightweight 12kg construction
- Two solution flow settings for efficient cleaning
- Red LED low-solution indicator
- Ergonomic **one or two-handed operation**
- Low-profile deck for difficult-to-reach areas
- Easy-clean flat recovery tank design

Product Benefits

- Faster and more effective than mopping
- Leaves floors clean, dry and safe for immediate use
- Improves hygiene by using only clean solution
- Reduces the spread of dirt and bacteria
- Easy to transport and manoeuvre
- Accesses areas larger machines cannot reach
- Simple maintenance helps maximise uptime

Technical Characteristics

- **Mains powered scrubber dryer**
- Lightweight 12kg machine weight
- **Single-pass scrub and dry functionality**
- Dual solution flow settings
- LED solution level indicator
- Low-profile cleaning deck
- Fully accessible recovery tank
- Designed for small-area floor cleaning

Applications

Nilfisk SC100 Upright Scrubber Dryer is ideal for shops, schools, restaurants, coffee shops, bakeries, hotels, garages, healthcare facilities, contract cleaning companies and domestic users requiring fast, hygienic and professional floor cleaning in smaller areas and confined spaces.
