Non Woven Beard Snood Metal Free - Pack of 100 - White

Variant code: 22-206/W

Non-Woven Beard Snood is a **disposable beard covering** designed to help maintain hygiene standards in food preparation, processing and other controlled working environments. Manufactured from lightweight **non-woven polypropylene**, it provides effective coverage of facial hair, including the beard and mouth area, helping minimise the risk of loose hair contaminating products or work surfaces.

Featuring an **elasticated edge and head loop**, the beard snood provides a secure, comfortable fit while allowing freedom of movement during everyday tasks. Its breathable, lightweight construction makes it suitable for regular use in busy food production facilities, commercial kitchens and other environments where facial hair containment is important.

Supplied in **Blue and White** and conveniently **vacuum packed in quantities of 100**, these metal-free beard snoods are suitable for disposable hygiene procedures. Their practical design supports workplace hygiene policies and provides a convenient solution for businesses requiring reliable facial hair protection.

Product Features

- **Disposable non-woven beard snood** for workplace hygiene
- Manufactured from lightweight **polypropylene**
- Designed to cover the beard and mouth area
- **Elasticated edge and head loop** for a secure fit
- Breathable construction for comfortable everyday wear
- **Metal-free design** with no metal fastening components
- Suitable for use in food handling and preparation environments
- Blue colour for easy identification
- Vacuum packed for convenient storage
- Supplied in a **pack of 100**

Product Benefits

- Helps prevent loose facial hair from contaminating food and work surfaces
- Supports **workplace hygiene and contamination control** procedures
- Lightweight material provides comfortable coverage during working hours
- Elasticated design helps keep the snood securely positioned
- Metal-free construction is suitable for workplaces restricting metal components
- Disposable format supports convenient replacement between uses
- Vacuum-packed supply provides practical storage and distribution
- Bulk pack of 100 supports regular use in busy working environments

Technical Characteristics

- **Product type:** Disposable beard snood / beard mask
- **Material:** Non-woven polypropylene
- **Material weight:** 16gsm
- **Diameter:** 480mm
- **Size:** One size
- **Colour:** Blue and White
- **Construction:** Elasticated edge and head loop
- **Metal components:** None specified
- **Packaging:** Vacuum packed
- **Pack quantity:** 100
- **PPE classification:** Category I - Minimal risk
- **Primary function:** Facial hair containment and hygiene protection
- **Usage:** Disposable, single use
- **Precaution:** Not intended to replace certified respiratory protective equipment

Applications

Ideal for **facial hair containment** in food processing plants, commercial kitchens, bakeries, catering facilities and manufacturing environments. Supports **hygiene and contamination control** where disposable beard coverings are required.
