Numatic Type 12" Tub Vac Filter

Variant code: 16-FIL151

Numatic Type 12" Tub Vac Filter is a **genuine replacement vacuum filter** designed for **Numatic vacuum cleaners with 12" (305mm) round canisters**. Engineered to provide efficient primary filtration, this filter helps capture dust and fine particles while maintaining strong airflow and consistent vacuum performance.

Positioned within the vacuum's filtration system, the filter protects the motor from dust ingress and helps maintain optimum suction throughout operation. Regular replacement ensures efficient filtration, supports longer motor life and contributes to cleaner indoor air by reducing the recirculation of fine dust particles.

Manufactured to Numatic's high-quality standards, this durable replacement filter offers reliable compatibility, simple installation and long-lasting performance. It is an essential maintenance component for keeping compatible Numatic tub vacuum cleaners operating at peak efficiency.

Product Features

- Genuine Numatic replacement vacuum filter
- Designed for 12" (305mm) round canister vacuum cleaners
- Provides efficient primary dust filtration
- Helps protect the vacuum motor
- Maintains airflow and suction performance
- Durable long-life filter construction
- Easy to install and replace
- Suitable for routine vacuum maintenance

Product Benefits

- **Maintains optimum vacuum cleaner performance**
- **Helps protect the motor from dust and debris**
- **Supports consistent airflow and suction efficiency**
- Improves filtration of fine dust particles
- Extends the operational life of the vacuum cleaner
- Quick replacement minimises machine

downtime
- Supports cleaner indoor environments
- Genuine compatibility ensures reliable operation

Technical Characteristics

- Product Type: Vacuum Filter
- Compatibility: Numatic 12" (305mm) Round Canister Vacuum Cleaners
- Canister Diameter: 12" (305mm)
- Function: Primary Dust Filtration
- Application: Motor Protection & Air Filtration
- Installation: Replacement Filter
- Genuine Numatic Accessory
- Commercial and Domestic Use

Applications

The Numatic Type 12" Tub Vac Filter is ideal for **offices, schools, healthcare facilities, hotels, retail premises, public buildings and domestic properties** using compatible **Numatic 12" (305mm) round canister vacuum cleaners**. Suitable for routine filter replacement, it helps maintain reliable suction performance, protects the vacuum motor and supports efficient dust filtration during everyday cleaning tasks.
