Numatic Nu-Plug to13A Plug 2 Core Cable/ Flex for Non Rewind Machines - 10m - Black

Variant code: 16-FLX76

Numatic Nu-Plug to 13A Plug Power Cable is a **genuine replacement mains cable** designed for **Numatic JVP and NVP non-rewind vacuum cleaners**. Featuring a durable **10m, 1.0mm² 2-core flex**, this replacement cable is fitted with a Numatic 2-pin Nu-Plug connector at one end and a standard UK 13A mains plug at the other, providing a reliable and secure power connection.

Designed to restore safe and dependable operation, the cable offers excellent flexibility and durability for demanding commercial cleaning environments. Its generous 10-metre length provides an extended working radius, reducing the need to change power sockets and improving cleaning productivity across larger areas.

Manufactured to meet Numatic's quality standards, this replacement cable is suitable for **non-rewind machines**, making it an ideal solution for replacing worn, damaged or faulty power leads. Installation is quick and straightforward, helping minimise equipment downtime and extend the service life of your vacuum cleaner.

Perfect for routine maintenance and repairs, this genuine-style replacement cable ensures consistent electrical performance and reliable day-to-day operation.
