Numatic NX300 36v Lithium Ion Battery

Variant code: 16-913686

Numatic NX300 Battery is a **professional lithium-ion battery pack** engineered to power Numatic's cordless cleaning equipment with reliable, high-performance energy delivery. Designed around Numatic's advanced NX Power Network platform, the NX300 combines long runtime, rapid charging and exceptional durability to maximise productivity in demanding commercial cleaning environments.

Featuring **36V lithium-ion technology**, the NX300 utilises a **30 power-cell configuration** that delivers **300Wh of energy**, providing the consistent power required for intensive cleaning applications. The battery is designed to support cordless operation across a range of compatible Numatic machines, helping users benefit from greater flexibility, reduced trip hazards and improved productivity compared to traditional mains-powered equipment.

The NX300 incorporates an **integrated battery health monitoring system**, allowing users to monitor battery condition and performance while helping to maximise operational reliability. Its advanced battery management technology supports long-term performance and helps protect the battery throughout its service life.

Designed for demanding commercial use, the NX300 offers a **fast off-board charging system**, enabling rapid turnaround between cleaning tasks and minimising machine downtime. With a long-life design capable of delivering up to **2,500 charge cycles**, the battery provides an economical and dependable power solution for professional cleaning operations.

Product Features

- Genuine Numatic NX300 lithium-ion battery
- Advanced 36V cordless power platform
- 30 power-cell configuration
- Delivers 300Wh of energy
- Integrated battery health monitoring system
- Fast off-board charging capability
- Long-life commercial battery design

- Compatible with selected Numatic NX platform machines

Product Benefits

- **Provides powerful cordless operation for professional cleaning equipment**
- **Reduces downtime through rapid charging performance**
- **Supports increased productivity and operational flexibility**
- Eliminates restrictions associated with mains power cables
- Helps maintain consistent machine performance
- Long service life reduces replacement frequency
- Battery monitoring enhances reliability and maintenance planning
- Suitable for demanding commercial cleaning environments

Technical Characteristics

- Product Type: Lithium-Ion Battery Pack
- Battery Voltage: 36V
- Energy Capacity: 300Wh
- Cell Configuration: 30 Power Cells
- Charging Method: Off-Board Fast Charging
- Battery Monitoring: Integrated Health Monitoring System
- Expected Life: Up to 2,500 Charge Cycles
- Genuine Numatic NX Power Network Battery

Applications

The Numatic NX300 Battery is ideal for **commercial cleaning contractors, healthcare facilities, schools, universities, retail premises, hospitality venues, leisure centres and industrial environments** using compatible Numatic cordless cleaning equipment. Suitable for powering **vacuum cleaners, scrubber dryers and other NX platform machines**, it delivers reliable cordless performance, extended operational flexibility and reduced downtime, helping cleaning professionals maximise efficiency throughout the working day.
