Numatic 38mm Banana Pipe Cleaning Brush - 200mm

Variant code: 16-602169

Numatic 38mm Banana Pipe Cleaning Brush is a professional vacuum cleaner accessory designed to provide effective dust removal and surface cleaning in hard-to-reach areas. Featuring a distinctive curved "banana" pipe design, this specialist attachment improves access around furniture, equipment, fixtures and awkward spaces, making cleaning tasks quicker, easier and more efficient.

Designed for use with Numatic's **38mm accessory system**, the brush combines durable construction with soft yet effective bristles that gently loosen and remove dust, dirt and debris from a variety of surfaces. The curved shape allows operators to clean areas that are difficult to reach with standard straight tools, improving cleaning coverage and reducing the need for awkward manoeuvring. Its lightweight design ensures comfortable operation during extended cleaning tasks.

Suitable for both commercial and industrial cleaning environments, the Numatic 38mm Banana Pipe Cleaning Brush offers reliable performance and excellent compatibility with Numatic vacuum systems. Built to withstand regular professional use, it is an ideal accessory for enhancing cleaning versatility and maintaining high standards of cleanliness.

Product Features

- **38mm banana pipe cleaning brush**
- Curved design for improved access to difficult areas
- Compatible with Numatic 38mm vacuum systems
- Durable construction for professional use
- Soft brush bristles for effective dust removal
