

Numatic 32mm Boiler/Crevice Tool – 560mm

Variant code: 16-601919

Numatic 32mm Boiler & Crevice Tool is a **professional long-reach vacuum nozzle** designed for cleaning **deep, narrow and hard-to-reach areas**. Measuring **560mm in length** with a **32mm fitting**, this specialist tool is ideal for accessing confined spaces such as behind radiators, boilers, machinery, pipework, furniture and other awkward locations where standard vacuum tools cannot reach.

Manufactured from durable, commercial-grade materials, the tool provides excellent airflow for efficient dust and debris removal while maintaining strong suction performance. Its slim, elongated design enables precise cleaning in tight spaces, making it ideal for detailed maintenance and specialist cleaning applications.

Designed as a direct-fit accessory for compatible **32mm Numatic vacuum cleaners**, the boiler and crevice tool is quick to attach and remove, providing a reliable solution for professional cleaning tasks. Its robust construction ensures long-lasting durability for demanding commercial and industrial environments.

Ideal for routine maintenance and detailed cleaning, the Numatic Boiler & Crevice Tool helps improve cleaning efficiency in difficult-to-access areas.

Product Features

- **32mm boiler and crevice vacuum tool**
- **560mm long reach design**
- Slim profile for narrow and confined spaces
- Durable commercial-grade construction
- Maintains excellent airflow and suction
- Direct fit for compatible 32mm vacuum cleaners
- Easy to install and remove
- Suitable for professional cleaning applications

Product Benefits

- **Reaches deep and awkward cleaning areas**

- **Improves dust and debris removal in confined spaces**
- **Maintains strong vacuum suction performance**
- Ideal for detailed cleaning around equipment and furniture
- Durable construction for extended service life
- Enhances the versatility of compatible vacuum cleaners

Technical Characteristics

- **Product Type:** Boiler & Crevice Tool
- **Brand:** Numatic
- **Diameter:** 32mm
- **Length:** 560mm
- **Material:** Heavy-Duty Plastic
- **Connection:** 32mm Push Fit
- **Application:** Dry Vacuum Cleaning
- **Compatibility:** Numatic and other compatible 32mm vacuum cleaners

Applications

Numatic 32mm Boiler & Crevice Tool is ideal for **commercial cleaning contractors, facilities management teams, schools, healthcare facilities, offices, hotels, workshops and industrial sites**. Designed for cleaning **boilers, radiators, machinery, pipework, ventilation systems, behind furniture and other confined spaces**, it provides precise cleaning performance where standard vacuum tools cannot easily reach.

Property	Value
