Numatic 32mm Brush Floor Tool - 300mm

Variant code: 16-900918

Numatic 32mm Brush Floor Tool - 300mm is a genuine Numatic vacuum floor nozzle designed to provide fast, efficient and effective cleaning across a wide range of hard floor surfaces. Featuring a full-width twin brush design and dual rubber wheels, this professional floor tool delivers smooth operation, excellent dust pick-up and superior manoeuvrability for commercial and domestic cleaning applications.

Designed with a **300mm cleaning width**, the floor tool maximises coverage while maintaining excellent control and ease of use. The twin brush strips gently agitate dust and debris from floor surfaces while protecting delicate finishes, making it ideal for use on vinyl, laminate, tiles, stone and sealed wood floors. Dual rubber wheels allow the nozzle to glide effortlessly across surfaces, reducing operator effort and improving productivity. In addition to hard floors, the tool also delivers excellent results on low-profile fabric floor coverings, providing outstanding versatility for mixed-floor environments.

Compatible with all Numatic models using the **32mm accessory system**, this genuine floor tool combines durability, reliability and professional performance. Its robust construction ensures long-lasting service, making it an essential accessory for maintaining high cleaning standards across a variety of environments.

Product Features

- **Genuine Numatic brush floor tool**
- **300mm full-width cleaning nozzle**
- Twin brush design for enhanced dust and debris removal
- Dual rubber wheels for smooth operation
- Suitable for all hard floor surfaces
