# Numatic 32mm Hose: For RSV - 1.5m

**Variant code: 16-601100**

**Numatic 32mm Hose for RSV Backpack Vacuums** is a genuine replacement vacuum hose designed to provide reliable airflow and optimum cleaning performance for compatible Numatic RSV backpack vacuum cleaners. Manufactured to professional standards, this durable **1.5 metre hose** ensures efficient debris collection while maintaining the flexibility and manoeuvrability required for commercial cleaning applications.

Designed specifically for the Numatic RSV range, the hose features a **32mm diameter connection** that delivers excellent airflow for effective dust and dirt removal. Its flexible construction allows operators to move freely while cleaning around furniture, fixtures and confined spaces, helping improve productivity and operator comfort. Built to withstand the demands of daily commercial use, the hose provides a secure connection between the vacuum cleaner and cleaning accessories while maintaining consistent suction performance.

Whether replacing a worn hose or keeping spare parts on hand for maintenance purposes, this genuine Numatic accessory helps extend equipment lifespan and ensures continued cleaning efficiency. Easy to fit and designed for long-term durability, it is an essential replacement component for professional cleaning environments.

## Product Features

- **Genuine Numatic replacement vacuum hose**
- Designed for compatible RSV backpack vacuum cleaners
- **32mm diameter connection**
- **1.5 metre hose length**
- Flexible construction for improved manoeuvrability
- Durable design for commercial cleaning environments
