Numatic Multi Size Power Tool Adaptor Tool - 32mm

Variant code: 16-601176

Numatic Multi Size Power Tool Adaptor - 32mm is a versatile vacuum accessory designed to connect compatible vacuum cleaners to a wide range of power tools for efficient dust extraction. Engineered to provide a secure connection between extraction hoses and power tool outlets, this adaptor helps minimise airborne dust, improve workplace cleanliness and support safer working environments.

Featuring a flexible multi-size design, the adaptor accommodates various power tool extraction ports, making it suitable for use with drills, sanders, saws, routers and other dust-generating equipment. The **32mm vacuum connection** ensures compatibility with Numatic vacuum systems and other 32mm extraction setups, allowing users to capture dust directly at the source before it can spread throughout the work area.

Manufactured from durable materials for professional use, the adaptor offers reliable performance in workshops, construction environments, maintenance operations and trade applications. Easy to fit and highly adaptable, it provides a practical solution for improving dust control and maintaining cleaner, healthier working conditions.

Product Features

- **Multi-size power tool extraction adaptor**
- **32mm vacuum hose compatibility**
- Connects vacuum cleaners to power tools
- Suitable for a wide range of extraction port sizes
- Helps capture dust at source
- Durable construction for professional use
- Easy installation and removal

Product Benefits

- Reduces airborne dust during power tool operation
- Improves workplace cleanliness and safety

- Supports better air quality in working environments
- Increases vacuum system versatility
- Compatible with multiple power tool brands and models
- Simple and effective dust extraction solution
- Helps protect equipment and surrounding surfaces from dust build-up

Technical Characteristics

- Accessory type: Power tool adaptor
- **Vacuum connection: 32mm**
- Multi-size tool connection design
- Suitable for dust extraction applications
- Compatible with Numatic 32mm vacuum systems
- Durable commercial-grade construction
- Suitable for professional and trade environments

Applications

Numatic Multi Size Power Tool Adaptor - 32mm is ideal for workshops, construction sites, maintenance teams, contractors, joinery shops, manufacturing facilities and trade professionals. It enables efficient dust extraction when using power tools such as sanders, saws, routers and drills, helping maintain cleaner, safer and more productive workspaces.

Property	Value
