Numatic 32mm One Piece High Level Aluminium Wand - 1220mm

Variant code: 16-601116

Numatic 32mm One Piece High Level Aluminium Wand - 1220mm is a professional vacuum cleaning extension wand designed to provide safe and efficient access to high-level cleaning areas. Manufactured from lightweight yet durable aluminium, this one-piece wand allows operators to reach ceilings, vents, ledges, pipework and other elevated surfaces without compromising cleaning performance.

Featuring a generous **1220mm length** and compatibility with Numatic's **32mm accessory system**, the wand extends cleaning reach while maintaining excellent airflow and suction efficiency. Its one-piece construction provides increased rigidity and stability compared to multi-section alternatives, ensuring greater control when cleaning overhead areas. The lightweight aluminium design helps reduce operator fatigue during prolonged use while delivering the durability required for demanding commercial cleaning environments.

Ideal for use with dusting brushes, crevice tools and other high-level cleaning accessories, this genuine Numatic wand helps improve cleaning productivity while supporting health and safety initiatives by reducing the need for ladders in routine cleaning tasks. It is an essential accessory for professional cleaning contractors and facilities maintenance teams.

Product Features
