Numatic 32mm Threaded Neck - Red

Variant code: 16-227396

Numatic 32mm Threaded Neck is a genuine replacement vacuum cleaner component designed to provide a secure and reliable connection between compatible Numatic vacuum hoses and cleaning accessories. Manufactured to fit the popular Numatic 32mm system, this durable threaded neck helps maintain optimum vacuum performance while extending the service life of your cleaning equipment.

Finished in Numatic's distinctive red colour, this replacement threaded neck is designed to restore worn, damaged or broken hose connections quickly and efficiently. The threaded fitting ensures a firm and secure attachment, helping prevent air leaks and maintaining maximum suction performance during operation. Its robust construction is engineered to withstand the demands of daily commercial and domestic cleaning applications.

Compatible with **all Numatic Henry machines** using the 32mm accessory system, this replacement part offers a simple and cost-effective maintenance solution. Easy to install and designed to original equipment specifications, it helps keep your vacuum cleaner operating efficiently while reducing downtime and replacement costs.

Product Features

- **32mm threaded neck replacement component**
- Compatible with all Numatic Henry vacuum cleaners
- Secure threaded fitting for reliable connection
- Durable construction for long service life
- Helps maintain optimum suction performance
- Suitable for replacing worn or damaged hose fittings
- Colour: Red

Product Benefits

- Restores secure hose and accessory connections
