Numatic 32mm Wet Pick Up Floor Tool - 300mm

Variant code: 16-900954

Numatic 32mm Wet Pick-Up Floor Tool - 300mm is a genuine Numatic vacuum accessory specifically designed for efficient liquid recovery and wet floor cleaning applications. Engineered for use with compatible wet and dry vacuum cleaners, this professional floor tool delivers excellent water and liquid pick-up performance, helping to maintain safe, clean and dry floor surfaces in commercial, industrial and domestic environments.

Featuring a **300mm cleaning width**, the floor tool provides effective coverage while maintaining excellent manoeuvrability in confined and open spaces. The specialised wet pick-up design maximises liquid recovery from hard floors, reducing drying times and improving cleaning efficiency. Compatible with Numatic's **32mm accessory system**, the tool connects securely to vacuum hoses and tubes, ensuring reliable performance during demanding cleaning tasks.

Manufactured from durable materials to withstand frequent use, the Numatic Wet Pick-Up Floor Tool is ideal for handling spills, flood recovery, routine floor maintenance and wet cleaning operations. Its robust construction and genuine Numatic quality make it a dependable addition to any professional cleaning equipment setup.

Product Features

- **Genuine Numatic wet pick-up floor tool**
- **300mm cleaning width**
- **32mm accessory compatibility**
- Designed specifically for liquid and wet debris recovery
- Provides efficient water extraction from hard floors
