Numatic 38mm - Aluminium Tube - Bent End

Variant code: 16-602931

Numatic 38mm Aluminium Tube - Bent End is a **lightweight vacuum cleaner wand** designed for use with compatible **Numatic 38mm vacuum systems and accessories**. Manufactured from durable aluminium, this genuine Numatic tube provides the perfect combination of strength, manoeuvrability and operator comfort, making it ideal for professional cleaning applications across commercial and industrial environments.

The ergonomic bent-end design improves handling and control during vacuuming, helping to reduce operator fatigue while maintaining a comfortable working position. Its lightweight aluminium construction makes the tube easy to manoeuvre during prolonged cleaning tasks, while still offering the durability required for demanding day-to-day use.

Designed to integrate seamlessly with Numatic's 38mm accessory range, the tube provides a secure connection between hoses, floor tools and other cleaning attachments. The smooth internal design helps maintain efficient airflow and suction performance, ensuring effective dust and debris collection throughout the cleaning process.

Product Features

- Genuine Numatic aluminium vacuum tube
- 38mm diameter connection
- Ergonomic bent-end design
- Lightweight aluminium construction
- Compatible with Numatic 38mm vacuum systems
- Corrosion-resistant finish
- Maintains efficient airflow and suction
- Durable professional-grade construction

Product Benefits

- **Provides comfortable handling during cleaning**
- **Lightweight design reduces operator fatigue**
- **Maintains strong airflow for optimum vacuum performance**
- Durable construction ensures long
